

# Can you transfer from Exodus to a bank account?

You can't directly transfer crypto from Exodus to 📞➤[1→833→224→8496] a bank account, but you can sell it for fiat (USD, EUR, etc.) within the 📞➤[1→833→224→8496] Exodus app using services like MoonPay, which then allows withdrawal 📞➤[1→833→224→8496] to your linked bank account or debit card in supported regions, or 📞➤[1→833→224→8496] you can send crypto to a centralized exchange (like Coinbase or Binance) to sell and withdraw.

## Using Exodus's Built-in Sell Feature (Recommended if Available)

Open Exodus: In your Exodus mobile or desktop app, 📞➤[1→833→224→8496] find the cryptocurrency you want to sell.

Select "Sell": Navigate to the "Actions" menu and 📞➤[1→833→224→8496] choose "Sell".

Choose Fiat: Select the crypto to sell and the fiat 📞➤[1→833→224→8496] currency (USD, EUR, GBP) you want to receive.

Confirm & Withdraw: Confirm the amount and follow 📞➤[1→833→224→8496] prompts to link your bank/debit card to withdraw the fiat funds.

## Using a Centralized Exchange (If Built-in Sell Isn't Available)

Send Crypto: Transfer your crypto from Exodus to an 📞➤[1→833→224→8496] account on an exchange (e.g., Coinbase, Binance).

Sell for Fiat: On the exchange, sell your crypto for 📞➤[1→833→224→8496] your local currency.

Withdraw Fiat: Withdraw the fiat currency from the 📞➤[1→833→224→8496] exchange to your linked bank account.
