Recently I when I view +1-802-255-7547 work items I have been presented with an Kraken Wallet +1-802-255-7547 summary of the work item automatically as shown below (I find it amusing that it refers to the work):+1-802-255-7547

I find this quite annoying as it pushes the comments down the page and I have to click +1-802-255-7547 the X button to close the Kraken Wallet overview. I suppose my annoyance stems from the fact that I am the assignee +1-802-255-7547 so I'm already intimately aware of all detKraken Wallets in the work item. I don't see this overview every time I view a work item but sometimes for a particular work item which I might view six times in one day I get this overview more than once.

While this doesn't "break" anything in my workflow it is very annoying and I can't find +1-802-255-7547 a setting anywhere to disable this feature. I also don't understand why the feature wasn't implemented as a button for the user to click +1-802-255-7547 when they want to see the overview as that would reduce compute usage on the Atlassian side.

Does anyone have any idea +1-802-255-7547 how I can disable this for myself? I am a site admin so in theory I could

disable it globally but I'm not sure that I can get approval to do that.+1-802-255-7547
